# Új-Ház Centrum Budapest Zrt.

---

2010 - The company was founded by Hungarian-owned professional investors, through a joint effort

2011 - Opening of the first commercial unit in Diósd. It is primarily a retail service.

2012 - Opening of the company's logistics center in Csepel.

Since 2013, the company has been a major trader in the region, actively participating in different projects.

As of 2015, we have become active participants in the priority construction projects in cooperation with the construction and investment partners of Új-Ház Centrum Budapest Zrt.

**We are involved in public investments in the fields of transport construction, bridge, road, railway, monument reconstruction, hall construction. In addition, we are also involved in the supply of building materials for condominiums, residential parks, hotels.**

Our product range includes everything you need to build or renovate a family house or even a condominium. We have high stocks of building material products to ensure flexible service.

## **The project sales service of Új-Ház Centrum Budapest Zrt. fully covers the needs of the market.**

We provide a wide range of building materials to complete your investments, from the start of construction to the completion of construction.

- With many years of professional experience, we support the daily work of our Partners
- We provide fast and flexible service, even with a fixed delivery schedule
- Delivery of goods from stock
- Development of alternative solutions as needed, introduction of novelties
- Competitions for our Partners
- Monitoring the progress of deliveries for construction work
- Collecting the delivered products and sending them to the customer periodically to keep the project up to date
- The financial security and predictability required for the implementation of the project
- Personal project management, professional consultation - organization of manufacturer consultancy, training.

The Új-Ház Centrum Budapest Zrt. has become a major player in the domestic building material supplier market, satisfying the needs of state, local government and external customers, as one of the market leading companies.

The company has made significant headcount and asset improvements that have helped improve efficiency. With our own means of transport and the logistical support required for delivery, we deliver on time.

Our sales experience, stable supplier relationships and networks, dedicated, skilled professionals, capitalized firm provide a solid foundation for our projects and guarantee that our Partners' building materials are supplied with the required professional and technical content on time and at competitive prices.

I hope that we can welcome you among our Partners very soon.
